

Daily Routine –Psoriasis

Juniper Australia recommends the following routine to get the best results for your skin condition:

Note: Before commencing your daily routine we need to prepare the skin and remove the flaky scales. It is important that removal of this skin is done correctly to avoid exasperating the condition. You will need to soak the skin either in a bath or shower and gently removed the scales with medical gauze (available from the chemist) or just use a face washer. Whilst the skin is still damp apply a small amount of the Medi Balm. Allow the balm to absorb slightly then reapply. Wait 24 hours then commence the daily treatment.
