# Scar Treatment Serum Scarred and Pigmented Skin

Read this leaflet carefully before you commence treatment. The information in this leaflet does not take the place of talking to your doctor, approved naturopath or beauty therapist.

The Scar Treatment Serum is a natural topical treatment, formulated to assist in helping to improve the appearance of old and new scars. It is also beneficial in assisting with the reduction of pigmentation, premature ageing, dehydration and uneven skin tone.

You have been recommended this product to treat one of the following skin conditions

Postoperative treatment, to assist in the prevention of scarring.

As a treatment to aid in the reduction of scarring from general wounds.

Pigmentation/premature ageing of the skin.

Refer to section 1a for the treatment of scarring and section 1b for the treatment of pigmentation.

# When should treatment commence:

For surgical scars, you should rely on the advice of your Surgeon on the best time to commence treatment. This is generally 6 to 8 weeks, or as soon as the wound has closed and there is no evidence of infection. For old scars treatment can commence immediately. Treatment for Pigmentation, premature ageing and uneven skin tone can commence immediately.

## Scar Treatment (1a):

The Juniper Scar Treatment Serum may assist with scar reduction from surgical scars and general wounds. It can assist in improving the appearance of the skin whilst reducing redness, dryness and itchiness common during the healing process.

You can get notable results from using the Scar Treatment Serum by itself. Greater results and healthier skin is achievable by adding the partnering products as per the following routine. Use for a minimum of 3 months. Continuous use will help achieve the best results.

- Cleanse with Junipers Calming Face and Body Wash
- Apply the **Scar Treatment Serum**. Sun protection should always be worn when using this product.
- Apply Junipers Medi Balm to keep the area moist, hydrated and provide a barrier to the wound.

#### **Directions:**

As soon as the wound has closed, gently massage the entire area with Scar Treatment Serum twice a day for 12 weeks. Visit our website for details on the correct procedure to massage a scar, or speak to your surgeon. For old scars, gently massage into the skin twice a day for up to 6 months. Continuous use will help achieve the best results.

## Pigmentation (1b):

You will get notable results in pigmentation reduction from using the Scar Treatment Serum by itself. Greater results, healthier skin and more even skin tone may be achieved by adding the partnering products as per the following routine.

### Pigmentation of the face:

Note: Sensitive Skin Conditions should be addressed prior to commencing this routine.

- Cleanse with Nourishing Cream Cleanser.
- Exfoliate with Regenerative Facial Exfoliant.
- Apply Rose Otto Hydrating Mist
- Apply the Scar Treatment Serum
- Apply Moisture Rich Hydrating Cream over the top of the Scar Treatment Serum during the day only.
- For further skin regeneration, apply Antioxidant Skin Firming Serum.

#### Pigmentation of the body

- Cleanse with Calming Face and Body Wash
- Exfoliate with **Detoxifying Body Exfoliant** (twice a week)
- Apply the Scar Treatment Serum
- Apply Intensive Body Lotion over the top of the Scar Treatment Serum

## Warnings & Precautions:
