

Psoriasis of the scalp/Flaky scalp

Juniper recommends the following routine to reduce itch and assist in the treatment of psoriasis of the scalp and flaky scalp.

Evening

Massage **Ultra Calm Replenishing Cream** or **Medi Balm** into the affected area and leave in over night.

Following Morning

To wash the medi balm out of the hair use an appropriate shampoo and conditioner for the condition.

Before wetting the hair, wash with shampoo to lift the oils, rinse and then wash and condition as usual (if you wet the hair first the oils from the balm will lock in and cause a greasy appearance)

Thankyou for trusting Juniper and we look forward to giving you the gift of healthy skin.
